

**Model 6654 Right Angle  
Drive Electronic Control  
For 360°**

The Model 6654 Control Head was especially designed for 360° right-angle drives to offer carefree control over the disconnect clutch and engine speed. The rugged bronze and stainless steel head is illuminated, can be equipped with a dimmer, and is available in various finishes such as chrome-plate and black epoxy. Depending on your needs, Kobelt can supply you with all the components, including microprocessors, for a complete turnkey system.

**Works exclusively with a 6535 system.**

**Weight: 12 lbs. (5.5 kg)**
